JASMINE IRAWAN

Computer Science & Software Engineering Graduate

Melbourne, VIC

0432698401 | jasmineirawan1@gmail.com | github.com/jasminepi5 | linkedin.com/in/jasmine-irawan | jasmineirawan.dev

EDUCATION

Bachelor of Computer Science, Monash University — Jul 2023 – Jul 2026

Major & Specialisation: Algorithms & Software (previously called: Advanced Computer Science)

Diploma of Information Technology, Monash College — Nov 2022 – Jun 2023

Stream: Computer Science

EXPERIENCE

PATROLI | PWA (Progressive Web App) | *See on GitHub: **link**; link to **Landing Page*** — Sep 2026 – Present

Software Developer, Full stack

- Developed a web application that lets security guards record their patrols using QR-code scans and lets supervisors view relevant information via a dashboard. Accessible via mobile and desktop.
- Utilised *Preact* for lightweight bundle, *Tailwind CSS* for styling, *PostgreSQL (Supabase)* for database and authentication.
- Conducted manual, automated end-to-end (*Playwright*), and unit testing

PROJECTS

MOGO | Android Rideshare App | *See on GitHub: **github.com/jasminepi5/MoGo*** — Dec 2025 – Jun 2026

Software Developer, Backend-focused (Final Year Project)

- Created a Monash Uni-focused Android rideshare app using Kotlin, Android Studio IDE, PostgreSQL (Supabase), and utilized MVVM architecture.
- Collaborated with a 4-person Scrum team implementing Agile methodologies; used Jira for backlog tracking and management.
- Implemented real-time route calculation, location-tracking, place autocomplete, and live map rendering using Google Maps Platform integration (Maps SDK for Android, Places API, Routes API).
- Executed manual functional testing across booking and location-tracking flows; authored and maintained testing documentation and report.

SKILLS

- **Languages:** Python, Kotlin, TypeScript/JavaScript, SQL, HTML/CSS
- **Frameworks & Libraries:** React, Next.js, Preact, Astro, Tailwind CSS, Android
- **Databases & Backend:** PostgreSQL, Supabase
- **Testing & Practices:** Playwright (E2E), manual functional testing, Agile/Scrum, MVVM architecture
- **Tools & Platforms:** Git, GitHub, Jira, Figma, Android Studio, Google Maps Platform
- **AI-Assisted Development:** Claude Code, Figma AI
- **Spoken Languages:** English, Bahasa Indonesia (bilingual)
